

## **Help send a family who has children with disabilities to Family Cafe**

*4/14/2011*

The Family Cafe sponsors an annual conference for families who have family members with disabilities or special health care needs. The conference has been a vital link in helping families find the resources they need to help them with their specific needs. These are families that are either un-served or under served and desperately need this lifeline.

The Family Cafe learned last month that the state was cancelling its contract that has provided the ability for families to attend this conference -- only three months before the event! We are working to help raise funds to send as many families as possible. The cost to send one family is \$250. Please consider helping to sponsor one or more families. Click on the links below for how you can help.
